

CLAIMS

1. (presently amended) A wrapping for used chewing gum, ~~characterized in that,~~

5 the wrapping ~~is~~ formed by an upper part and a lower part of identical form and size,

the upper and lower parts disposed to be applied together by their full surfaces,

where both parts are provided with opposite situated vertical pre-scored lines and where parts are

10 attached together along their margins partially, characterized in that parts are attached together
along their margins partially from one-third to one-half of the circumference of the parts.

2. (presently amended) A method for use with a wrapping formed by an upper part and a lower

15 part of identical form and size, the upper and lower parts attached together along their margins
partially, from one-third to one-half of the circumference of the parts, the method comprising the
steps of:

depressing two sides of the wrapping with fingers, thereby creating a funnel shaped opening

20 while opening the wrapping;

thereafter, spitting used chewing gum into the wrapping from the mouth without direct contact
with the fingers;

25 thereafter, pressing the upper and lower parts together; and

thereafter, discarding the wrapping.
